It's been a month since we started...

It's been a month since the new semester started. The new students are getting used to elementary school life and are having a good time.

From this year, corona restrictions have been greatly eased, and school life is also changing. What has changed the most is that children's singing voices have returned to school. From April, we are allowed to sing in chorus as long as we wear a mask, so we have resumed singing every morning. After 8 o'clock every morning, the school song can be heard from every class. Even the new students learned quickly. So far, we have performed the school chorus three times at the opening ceremony, the morning assembly, and the school assembly. It's great to see the children back in good health.

In Japan, restrictions on movement, including wearing masks, will be almost eliminated from May 8th. However, in our experience, the number of infected people will usually increase after consecutive holidays. It is important to continue to live with caution.

※We will inform you again about life in school after May 8th.

Let's give a cheerful greeting

At school

- We teach children to be confident in their ability to act on time.
- We encourage children to be at school by 7:50.
- We encourage children to name their belongings.

At home

- Decide when your children go to bed, when they wake up, when they play games, when they use their smartphones, etc.
- Please let your child leave the house so that they won't be late.
- Please check your child's learning materials. (name tag • laundry • hat band etc)

月日	行事	月日	行事	月日	行事
5/2(火)	市内巡り(特支)	16(火)	交通安全教室(1.5年)	13(火)	1年食に関する指導授業

4月11日（火） Entrance ceremony
The 5th year of Reiwa entrance ceremony was held. This year, 59 children enrolled. When their name was called, they raised their hand and said "yes". All the children were able to respond well. The ceremony was broadcast live on YouTube. It seems that even relatives far away were able to watch.

1st grade help

The 6th graders will help the 1st graders with various things until they get used to school life. First graders have a lot to do when they go to school. It takes time, but they are very grateful that the 6th graders help. The 6th graders come to help them during lunch time, so our lunch is served smoothly.

朝のしたくのお手伝い

短距離、長距離、跳躍 いろんな場所で練習

Track and field practice

Last year, the race was held for half a day, there was a limit to the number of athletes who could participate from each school, and there was no final race. This year, twice as many athletes will be able to participate. They have to practice every day to improve their record. They are all doing their best in each event.

雨でも体育館で頑張っています

4月24日（月） 1st gr Welcome party

The children of the planning committee planned and had a party to welcome the first graders. They entered the hall hand in hand with the 6th graders, got excited with a school-wide O X quiz, and received hand-made presents from the 2nd graders, which made them look very happy.

アーチをくぐって入場

2年生からメダルのプレゼント

静かに素早く避難しました。

4月14日（金） Evacuation drills

We conducted evacuation drills assuming that a large earthquake had occurred. The entire school was able to evacuate within 5 minutes. We are planning a handover training in June. It is important to prepare on a daily basis so that each family can hand over smoothly.

内科検診をしています

Health check

The health checkup is stipulated by law, and examines the teeth, eyes, nose, ears, and body. Exercise and daily life may be restricted depending on the result. Sometimes you can't enter the pool. See a doctor as soon as possible and get treatment. Please inform the school when the results of the diagnosis and treatment are completed.

Purpose of health checkup

- 1 Early detection and treatment of diseases
- 2 Early prevention of illness, prevention of lifestyle-related diseases
- 3 Self health care
