Half of the first semester has passed!

Two months have passed quickly, and the first semester is half over. During this time, the wearing of masks has been lifted, and the ban on gatherings, meals, and travel has also been lifted. However, the virus is not gone. We still need to be careful and live. It seems that about 80% of children wear masks at school. It seems that there are many children who take it off during physical education time and break time. I hope everyone will be able to live without a mask soon.

We will finally use the pool this year. It was hard to clean the pool that had been neglected for three years. With the help of all the teachers, and with the help of the fathers, we were able to clean it up.

The primary goal of swimming class is to follow the rules and have fun exercising. Many children especially forget to get their parent's stamp on their pool card and their swimming cap. Please be careful!

Use language appropriate to the time and place

At School

- Let students use polite language that considers other peoples' feelings.
- Let students be conscious of the way they speak to superiors.
- Make students aware of the difference between class time and break time.

At Home

- Have your child respond, when called.
- Teach your child important words for communication.
- Parents should also try to use polite language.

月日	行事	月日	行事	月日	行事
6/1(木)	Electrocardiogram (1grd)	21(水)	宿泊学習(5grd・Leave school at 14:50)	6(木)	落語教室(4年)

20(火)	Accommodation learning(5grd)	5(水)	委員会/歯科健康教室(3年)		

Please check the calendar carefully before calling the school.

2日 (金) Spring excursion

There was a spring field trip for Asunaro and Futaba classes. The children had a lot of fun on the roller slides and athletic park at Sakata-gaike Park. Finally, we went to Sakuranoyama Park and toured the airport. There were many planes taking off and landing, it felt that the ban on travel had been lifted.

Long roller slide

pedestrian traffic light

Wear a helmet and look left and right

16日 (火) Traffic safety guidance

This year again, we held a traffic safety class with people from the Traffic Safety Association. 1st graders were taught how to walk safely on roads, and 5th graders were taught how to ride bicycles safely. Check your surroundings when crossing the road. Wear a helmet when riding a bicycle.

the weather was soooo good

17日 (水) Track and field competition

The 5th and 6th grade representatives participated in the track and field competition. The weather was fine this morning, and the temperature rose to nearly 30 degrees Celsius. The players were tanned bright red. There were many children who set personal best records.

great hurdling

Before A tree was growing...

After It's clean now!

Pool cleaning

We are planning to use the pool for the first time in four years. There were trees growing on the poolside, and the fallen leaves were like compost, so it was difficult to clean. We managed to clean it up with the help of the people of the father's association. Please prepare your equipment properly. Then there's the weather...

The children were taught how to send water

25日 (木) Sanrizuka Water Distribution Station

The water we drink all the time comes from here. We learned that there are important facilities nearby. Well water has a constant temperature all year round. The water is cold even in summer. It seems that there are important facilities in familiar places where the children always go.

big tank with water

children shrink

brothers line up together

26日 (金) Evacuation drills

This time it was assumed that a suspicious person entered the school. We don't know when it might happen. Training is always important. On June 28th, we will carry out a drill to pick up the children after visiting the class. It will be a training assuming a real handover. Thank you for your cooperation.
