## January is gone!

If children don't have a purpose in their lives, the third term will be over in the blink of an eye. We would like the children to set goals for this year and at the same time make sure there is nothing left undone in the remaining three months of this semester.

In January, the number of children influenza with suddenly increased. Strangely enough, it only spreads in certain classes. There is no spread to neighboring classes or sibling grades. But don't let your guard down. We feel that it is important to keep in mind the prevention of infectious diseases that we have learned during the coronavirus pandemic.

Let's continue to ① gargle and wash our hands thoroughly, ② wear a mask, and ③ avoid crowded places.

This year, the children's hard work was exhibited at an exhibition. The returned works were displayed in front of the staff room for everyone to see. Please take a look when you visit our school.

life goals

## Live a healthy life

### At school

- Gargle and wash our hands.
- Have them use handkerchiefs and tissues.
- Thoroughly control the temperature and ventilation in the classroom.
- Challenge them to jump rope.
- Teach them not to walk with their hands in their pockets.

### At home

- Let your child gargle and wash their hands.
- Have your child bring a handkerchief or tissue.
- Let your child wear gloves when it's cold.
- Please sign your child name on the jump rope form.

### 16日（火）家庭教育学級

Dental hygienists from Narita City came to visit us and taught us how to brush our teeth. It is said that if children do not brush their teeth properly during the important period when their baby teeth are replacing their permanent teeth, they will regret it for the rest of their lives.

### 19日（金）国立歴史民俗博物館

The 6th graders went on their last field trip before graduation. The children practiced writing their names in old kanji at an old school, Terakoya. The children also had the opportunity to try and complete a model of excavated pottery that had been broken. The weather was nice and everyone had a great time.

### 大谷選手のグローブが届きました！

The gloves donated by Shohei Otani have arrived. The 6th graders from the baseball club opened it on behalf of the school. It was passed around all the classes in turn and had all the children touch it. After that, the children will be able to use it. Thank you very much, Mr. Otani. We will cherish it.

### School gate rules

The school has four gates: the main gate, staff gates (front and back), and the back gate. All gates are supposed to be closed to ensure the safety of children except during school hours.

Each gate has a promise. Let's make sure that all adults keep their promises so that children can have a safe school life.

There are parents who drop their children off at the employee gate during school hours. This may cause an accident with the car of a child or staff member on their way to school. It is prohibited to drop off children at the employee gate.

#### Main gate

Only for walking and bicycles. Car traffic is prohibited.

#### Employee gate (back) Car only

Normally, children and guardians do not use.

#### Employee gate (front) Car only

It must not be used for picking up and dropping off children or when the gymnasium is open to the public. (Excluding pick-ups due to sickness etc.)

#### Back gate (Gakudo side)

It is used for picking up and dropping off students, school children, and opening the gymnasium. Please follow the instructions of the Gakudo on Saturdays and during summer and winter vacations.
