There is only one month left this year!

Time flies and there is only one month left. On February 21st, we held a farewell party for the 6th graders. After that party, the graduation ceremony will be just around the corner.

In March, practice for the graduation ceremony will begin. I hope that the remaining days will become precious memories.

At the farewell party for the sixth graders, current students gave creative and entertaining presentations. We have seen so much growth in all the students this year. In March, we will have your children summarise the past year and set goals for the coming year. Try discussing the past year at home as well.

The graduation ceremony is on Tuesday, March 18th.

The graduation ceremony will be attended by 4th and 5th grade students. Students in grades 1 to 3 will be temporarily closed. The graduation ceremony will be live streamed. Students from 1st to 3rd grade will be given tablets to take home, so you can celebrate graduation through a live stream.

Also, when the students leave school on Monday the 17th, all current students from 1st to 5th grade will see off the 6th graders. This is the time for 1st to 3rd graders to say goodbye to the 6th graders.

March
life goals

Let's say thank you to those who took care of us

At school

- Have them think about who helped them.
- Have them think about what they can do to express their gratitude.
- Have them think about how they have grown in the past year.
- Get ready to welcome the new year.

At home

- Talk about memories and how they have grown in the past year with family.
- Help them realize their own growth.
- Talk about next year and set goals.

My favorite quote - 6th grade

Before graduating, the sixth graders wrote their "favorite kanji" and "favorite word." Each student's personality was clearly expressed. They will soon be graduating. Even when they move on to junior high school, I hope they will keep these words in mind and do their best.

8日(土) Class Observation

We held a class observation. Many parents came to the school. Unlike usual, the children seemed to be excited from the morning. Every class seemed to be having fun, with parent-child recreation and presentations of what they had learned. Thank you for visiting.

14日(金) Field Trip

This is a summary of this year's learning for the Futaba and Asunaro classes. The children travelled by bus and train. They paid for their own bus fares. They bought their own train tickets. They went shopping, ordered food, and paid for everything by themselves. I could feel each child's growth.

21日(金) Farewell party

We held a farewell party for the 6th graders. The children practiced hard to thank the 6th graders for all their help and to wish them the best in their junior high school careers. The sixth graders shared their fun memories, their goals for junior high school, and words of thanks. I felt that they had grown up so well.

Jumping rope

This time of year is always the jump rope season. In January, the students split into vertical groups and did long rope jumping. The older students encouraged the first graders and taught them how to jump, and they all got along well. During lunch break, many children practice in the Green Square.
